Phone Number: +55 (35) 98712-1329

23 years old – Brazilian – Single

Objective

As a Computer Engineering student, I aim to apply and expand my knowledge in programming, interface design, and full-stack development. I seek to contribute to innovative projects, gain practical experience, enhance my education, and drive technological advancement.

Education

- **Instituto Federal de Educação, Ciência e Tecnologia – Campus Poços de Caldas**
High School Integrated with a Computer Technician Program (3 years) – 2017 to 2019;
Bachelor's Degree in Computer Engineering (5 years) – 2020 to 2025 (expected).

Experience

Oct 2018 – Dec 2018 (2 months)

Internship as a Computer Maintenance Technician and IT Instructor | CIADI - Integrated Daycare Center for the Elderly;

Feb 2019 – May 2019 (3 months)

Internship as a Full Stack Developer | Excelência Consultoria e Educação;

Development of the main website for Consultoria Excelência and Power Portal, including database search functionality and an admin area for updates, initially using HTML and PHP;

Jun 2019 – Present (6 years)

Full Stack Developer (Freelancer) | Excelência Consultoria e Educação;

Implementation of new technologies, redesigning the main website for [Consultoria Excelência](#) with ReactJS and NodeJS, improving performance and usability;

Development of new features and design for [Power Portal](#);

Creation of a Python application for automating data retrieval from an online course platform and insertion into the database;

Creation of automations in Power Automate for data retrieval, organization, and sending, in an external project for the company.

Sep 2024 - Jan 2025 (6 months)

Scholarship for the Arte de Caderno Extension Project | Federal Institute of Education, Science and Technology - Poços de Caldas Campus

Developed a front-end application using ReactJS and TypeScript to streamline the submission, analysis, and management of drawings by public school students participating in the "Arte de Caderno" contest, enhancing accessibility and process efficiency.

Courses, Certifications, and Additional Activities

2015 - 2018 (3 years)

English and English Conversation | CEDET – Center for the Development of Potential and Talent;

Jun 2018 – Sep 2018 (3 months)

Volunteer work as an Italian teacher | CEDET;

Sep 2023 – Sep 2024 (1 year)

Training in the ReactJS Specialist Track and the NodeJS Specialist Track | Rocketseat;

2022 - 2023

Programming Olympics | 12º OLIP, 13º OLIP, ICPC 2022 e ICPC 2023;
